

KANSAS CITY MANUFACTURING NETWORK PRESENTS

PULL SYSTEMS/KANBAN TECHNIQUES

A Key Building Block of Lean Manufacturing

Date

Thursday, September 21, 2000
7:30-9:00 A.M.

Place

KU Regents Center, Edwards Campus, Room 210
12600 Quivira Road in Overland Park, KS

Presenters: Michael Niedenthal,
MAMTC Regional Office Director
Orval Engling, Kraft Tool Company, Plant Manager

Join us! You'll come away knowing:

How to eliminate the non-value-added activities of the traditional
computer-driven production system
How to use demand to trigger shop floor production activities
How pull/kanban techniques has changed manufacturing at
Kraft Tool Company

To register, call Patricia Thedinger @ 913-469-9760,
